Equipment design, production & full service installation

Smart solutions for retail, supply chains & FMCG companies

Retail consulting and concept design

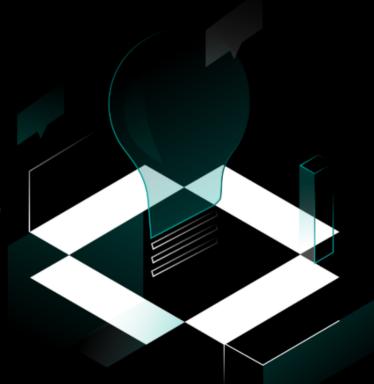

Designing and manufacturing production lines as well as stamps, molding tools and rapid tooling

MINT INNOVATIONS

An innovative company created to develop and implement the latest high-tech solutions in Modern-Expo's portfolio

Our main competence is to develop comprehensive smart solutions that transform retail space into stores of the future

Our Experience

15+
years of experience

20+ ongoing projects

100+
Experiments

100+

pilot projects in:

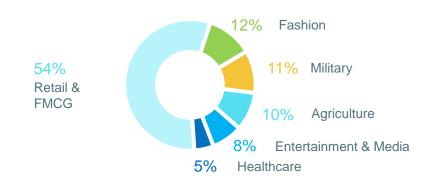

- > Retail & FMCG
- Fashion

AgricultureHealthcare

Military

Entertainment & media

Areas of Expertise

Our Agile Team

70 team members

46

Software developers

10

Data scientists

10

Hardware engineers

4

PhD

We see efficiency as point of differentiation using

Robotics

Challenges we successfully overcome

We collect and process valuable data about purchases, customer behaviors and sales. Based on this information we can formulate business processes that allow to:

Control and manage equipment remotely

Carry out merchandising control

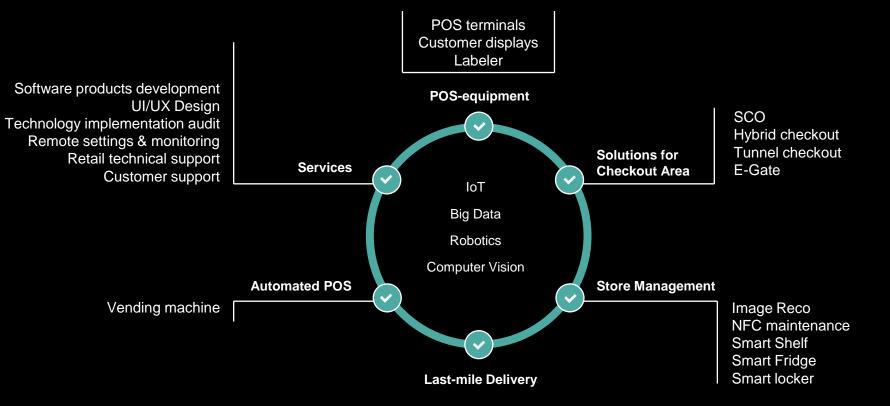

Make sales predictable

Build customer portraits

Analyze and manage client's portfolio

Eliminate outof-stock

Our Solutions

POS-terminal

Matrix LED LCD 15.6",16:9, 1920×1080.

Processor Intel Celeron J1900 2,42 GHz.

Random access memory 4 GB DDR3.

Solid state drive SSD 64GB*

Graphic system Intel HD Graphics

Operating system support Linux, Windows (XP/7/8/10)

Touch screen projected capacitive

The number of points of contact 10 multitouch

Power source: AC 100 ~ 240V. Capacity 65 W max

Interfaces:

- > USB: 1 x USB 3.0; 6 x USB 2.0
- COM1: RS232/422/485, DB9
- > COM2: RS232, DB9
- COM3: RS232, RJ50 with convert to DB-9 cable
- > PP USB (24V) 1 port
- > LAN 2 ports
- > VGA 1 port

Advantages:

- > Easy maintenance
- > Intuitive interface
- Superior security
- Fast integration
- Service support

Peripherals:

- Magnetic stripe reader
- Customer display
- Scales
- Barcode Scanner
- > Check printer

Touch Display

Display LED LCD 15.6 ", 16: 9, 1920×1080,

capacitive touchscreen

Power source: 12-19V -2A min

VGA port – 1 unit

HDMI port – 1 unit

USB port – 1 unit

Touchscreen customer display — full color interactive screen

Functions:

- Product demonstration
- Customer questioning
- → Promo

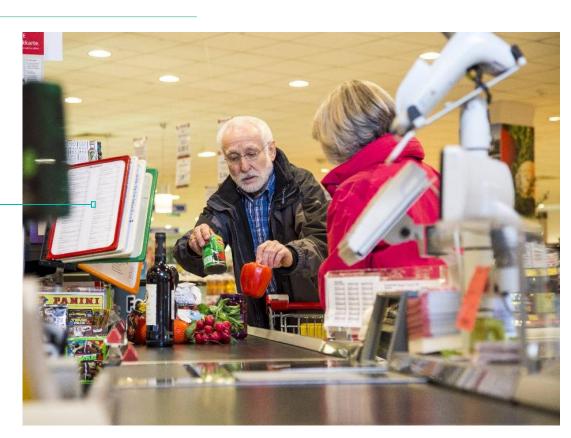

Advantages:

- Easy maintenance
- Fast integration
- > Service support

The Issue: Traditional Ways of Marking Products in a Store

Self-service scales – only for fruits and vegetables -> manual search of the product by a cashier

The Issue: Traditional Ways of Marking Products in a Store

Stationary label printers + plus manual product marking

Self-service Terminal TagPad

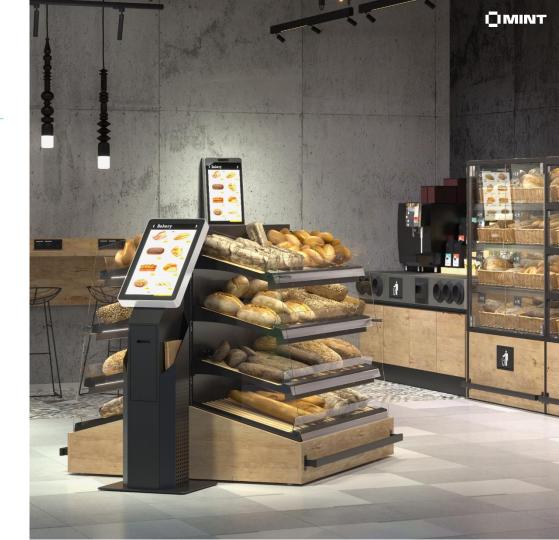

Solution that combines touch monitor and label printer. It is perfect for products sold by pieces: own-produced bakery, confectionery and beverages.

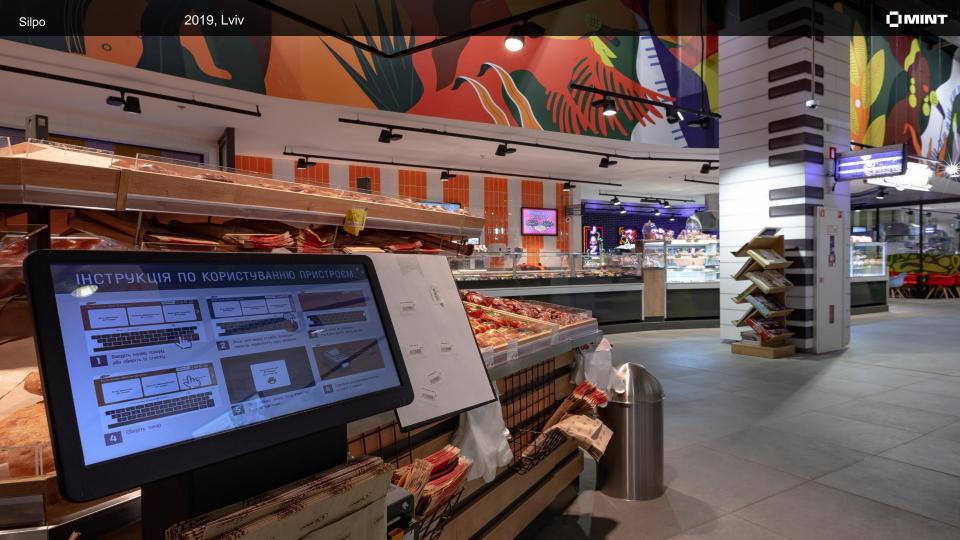

Self-service Terminal TagPad

Benefits:

- Compact size
- > No additional equipment needed
- > User-friendly interface
- > No involvement of store workers
- > Optimization of stock monitoring
- > Elimination of human mistakes
- > No waiting in lines
